2018 Simulated Emergency Test (SET)

The annual Simulated Emergency Test takes place this Saturday, October 13, from 9 AM to Noon. The statewide SET is designed to assess the capability of amateur radio operators to provide communications in the immediate aftermath of a natural or man-made disaster. All amateurs are encouraged to participate in the exercise by sending a short situational report or damage assessment on the simplex frequency of 146.520. The scenario of this exercise will be that a major hurricane has affected all Hawaiian islands.

For more information, please contact **Tad Miura, Kauai RACES coordinator**, at ZSSQ@Hotmail.Com

Nomination of officers coming up at monthly meeting...

We'll be nominating officers for the upcoming term at the monthly meeting on **5 Nov** at KIUC's Conference Room on Pahe'e St. Check your membership status and come on out...help us put together a good team for this next term.

Da Store is open...

Thanks to Dick, we now have a store on our website where folks can browse and order their spiffy KARC shirts! Perhaps more nifty swag may follow? Used gear?
